**PHYSICAL THERAPY SERVICES OF MORRISTOWN LLC  
CELEBRATES 10<sup>TH</sup> ANNIVERSARY SERVING AREA RESIDENTS**

**Launch of new 3,000 sq. ft. state-of-the-art facility and  
the hiring of two additional therapists mark anniversary**

Morristown, NJ – December 6, 2004 -- Physical Therapy Services of Morristown LLC announced today the addition of two physical therapists to its team, and the opening of its state of the art, 3,000 sq. ft. facility located at 101 Madison Avenue, while celebrating its tenth year serving the greater Morristown community.

Since 1994, Physical Therapy Services of Morristown, LLC (PTSM) has employed a staff of highly motivated physical therapists, and has offered personalized one-on-one care. PTSM specializes in sports-related and orthopedic injuries, and the evaluation and treatment of related conditions, and has helped more than 3000 area residents.

"It has always been my ambition, to create a facility that would enable us to offer the finest care to our patients, and that complemented the strengths and training of our skilled staff," said Thomas Trezza, Director of PTSM. "After years of researching the latest in facility design, and listening to our patients and team, we have developed a facility that represents the best of all worlds – for patients and staff. The new facility is nearly double the size of our previous office, and is an extension of our unwavering commitment to providing the best one-on-one care – from the minute a patient walks in our door."

"From the reception area, to the private treatment rooms, to the on-site gym, it's the type of space I've always wanted to have."

The new facility boasts a 1000 sq. ft. gym equipped with Quantum's Combination Series exercise equipment. In addition to the seven weight systems, the gym houses the newest line of upright and recumbent cycles, and treadmill from SportsArt. The floor plan hosts seven individual treatment rooms, each equipped with Earthlite Ellora electric lift tables.

The facility will be able to provide personalized care to more than 60 patients each day. Those attending therapy at PTSM receive one-on-one time with their therapist and are guaranteed to see the same therapist throughout the entire course of their treatment.

PTSM has also expanded its professional staff. Joining Thomas Trezza, MSPT and Allison Johansen, MSPT are Susan Ramm-Stager, RPT and Justine DeLuccio, MSPT, OCS, FAAOMPT.

Susan returns to PTSM after taking time off to be with her family. She earned her degree from the University of Medicine and Dentistry of New Jersey / Kean College, and has more than 9 years of clinical experience. Her enthusiasm, manual therapy skills and compassionate care are welcomed back. We look forward to her continuing the outstanding care that she has always provided.

Justine joins the clinical staff of PTSM bringing with her a wealth of knowledge and energy. She has a diverse background including outcomes education and management and has held teaching positions at Long Island University and the University Of Medicine Dentistry Of New Jersey. She is a fellow of the American Academy of Orthopedic Manual Physical Therapist and is a Board Certified Clinical Specialist in Orthopedic Physical Therapy. Justine's combination of inherent clinical skills and well rounded educational background will be of great value to her patients.

**About PTSM:**

Founded in 1994 by Thomas Trezza MSPT, PTSM holds office hours from 6:30am to 6:30pm Monday through Friday. Visits are by appointment only, and most patients are seen within 24-48 hours of contacting the office.
